"Persons who pretend to be conspicuous members of the A. P. A., have given eleculation to the statement that Hon. William McKinley is a member of the Ancient Order of Hiberians; that Mr. M. A. Hanna, who is Mr. McKinley's personal and political friend, is a Roman Catholic; that Mr. Boyle, Mr. Mc-Kinley's private secretary, is also a Catholic and, finally that while Mr. Mc-Kinley was governor of Ohio his appointments were largely made from the nembership of a certain religious de-comination. It is argued, therefore, that McKinley is not the right kind of This statement is untrue in part and

in whole. Mr. McKinley's American-ism reaches back to the war for Independence. William McKinley himself was a private in the Union army while yet a boy, and carried a musket for four years. He is a member of the been a member of that denomination all his life. His ancestors and his famity for two generations have been Protestants—Methodists and Presbyterians

Idle Capital Piles Up, Which Fact Causes a Turning Toward Invesments in Rallway Securities on This Side-Visit of J. Pierpont Morgan to London-Market Opens With Snap and a Rush of Buying Orders-Realizing Sales Ensue-Relapses, Steadles and Closes at Fractional Gains

New York, April 15.-Today's stock market fell considerably short of genhat wears on the concerned. This was particularly disconcerned appointing, as at intervals a show of appointing, as at intervals a show of animation was made. The tone of the speculation, however, was unmistakably strong. A gratifying development and one that offset a firmer tendency in exchange rates was a renewal of interest in American securities by foreign dealers, giving some confirmation of the current sugestions that the visit of Mr. Morgan to London will be fa-vorably reflected in this market thro' awakened investment demand for our railway securities. The continued ac-cumulation of idle capital in London is causing operators at that center to redirect their attention to this market. Well informed financiers, however, still deprecate the disproportion of activity of shares to the large volume of business in the industrials. There was again today a moderate demand for securities by commission houses. The early dea-lings were characterized by a certain amount of snap, but after the first rush of buying orders was executed, the market yielded on realizing sales and yet a boy, and carried a member of the four years. BOSTON MARKETS

Reston, April it.—The American Wool and Cotton Reporter will say tomorrow. The sales of wool in the three principal markets during the week under review have amounted to 1257,000 pounds, of which 187,700 pounds were foreign wools. This is a larger aggregate than in any recent week, but the Ingresse is mainly due to foreign stocks. The demand for domestic wood at date is comparatively slight. Future export movement of domestic wood to England and Beigius has been a nothceable incident of the week. If this movement develops considerable proportion in the near future, the moral effect upon the domestic market situation must be pronounced; the feeling that a possible outlet exists for the large stocks held at this time, will have a measurably good effect in restoring confidence. NO OPPOSITION THERE TO THE BERING SEA TREATY.

the Claims of British Subjects for Alleged Damages Sustained at the Hands of the United States Previously to the Paris Award-Same Matter Which the Late Secretary Gresham Vainly Proposed to Settle by the Payment of a Lump Sum-Dupont Election Contest.

Washington, April 15.-The senate spent the entire day on the Dupont case Mr. Gray of Delaware arguing against the claim of Mr. Dupont. During the day Mr. Gorman proposed an agreement that a final vote on the Dupont case to be taken next Wednesday. Mr. Mitchell, in charge of the case, declined to make an agreement at this time. This tender by Mr. Gorman was regarded as significant of the confidence of the opposition to Mr. Dupont to resist his claims to a seat. Mr. Gray will proceed with his speech tomorrow, after which there is promise of a further clash over taking up the bond resolution, as Mr. Allison stated today that the bond question must give way to appropriation bills. Mr. Gray yielded at 4 o'clock and the senate went into executive session.

At 4:55 the senate resumed its open session. Bills were passed amending the law relating to the protection of salmon fisheries in Alaska; for the sale of public lands by private sale in the state of Missouri; to pay the heirs of Sterling D. Austin \$59,287: apprdoorfating \$17,000 for acquiring burial ground at Fort Meigs and Put-in-Bay Island. Ohio, and the interment thereon of the soldiers and sallors of the war of 1812. At 5:30 p. m., the senate adjourned. BERING SEA TREATY.

The senate in executive session today ratified the Bering sea arbitration

The treaty provides for a commission to arbitrate the claims made by citizens of England against the United States for seizures of vessels engaged in the capture of fur seals prior to the Paris award. It was verbally amend-ed by the committee on foreign relations, but not to an extent to meterially change its purpose. The senate rati-fied it without making any changes in addition to those made by the commit-tee, and without any dissenting vote. The agreement was explained by Senator Sherman of the committee on for-eign relations and by Senators Gray and Cullom. Mehssrs. Hoar and Chan-dler criticized the wording of the document. Senator Pugh sugested the absence of his colleague, Senator Morgan, and stated that the latter was desirous of being present when the treaty was taken up. Attention was called to the fact that Mr. Morgan had opposed the settlement proposed by Secretary Gresham during the last session, but it was stated in reply that Mr. Morgan would be satisfied with the treaty as amended and it was urged that as some time had already elapsed, it was important that action be no longer delayed. Some questions were asked as to the amount involved in the proposed settlement and it was stated in reply that this could not be definitely given. The near est approximation to the figures possible was the sum which Secretary Gresham agreed to pay, which was some thing less than half a million dollars.

The senate today confirmed the nomi nation of Charles E. McChenesy, of Hartington, Neb. to be agent for the In-

dians of the Rosebud agency in South The president today nominated Leo Bergholtz of New York to be consul of the United States at Erzeroum, Arme-

nia. From a litter written by Rev. J. Gunderman, of Diamondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Eaptist church at Rives Junction the Baptist church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Geo. Van Werden's Pharmacy, 338 N. Main street and G. HELP IN TIME OF NEED

Action Taken to Help Out the Atlantic and Pacific. New York, April 15 .- Atchison interests stated today that the adjustment decision rendered by the board of arbitration in the matter of business over the Atlantic and Pacific, confirmed the position taken since the receivership, by Bicycles. which all the Atchison lines gave up share of their earnings on both over the Atchison and the Atlantic and Pacific. The arbitrators increased the Atlantic and Pacific percentage on through bus-iness by 5 per cent. The adjustment will probably bring the line an increase of receipts of about \$200,000 per annum and the back payments may be suffic ient to allow the Atlantic and Pacific to meet the expenses accrued for that per-

iod antecedent to bond charges.
